Profile

Hello, there This is full stack web developer Harshit Gupta. I'm thrilled to be in the deployment stage of my career as a web developer since I enjoy solving problems and taking on challenges in my profession. I have working experience as a freelance website builder, and I am passionate and ambitious about my job.

Skills

Client-Side

HTML5, CSS3, Bootstrap, Javascript, JQuery

Server-Side

Python, Google Cloud, Mongo DB, NodeJS, PostgreSQL

Libraries & Tools

React JS, Vscode, Git, Swagger UI

Interests

Chess (Play chess once a weekend with social tournament setting),

Listening to music (Listening to music lowers stress and elevates my mood. It strengthens learning and memory abilities too.),

Travel (Traveling can prove you're not afraid of stepping outside your comfort zone and learning new things.),

Teaching (Teaching is more of a hobby than a true career for me because I've been a home tutor for about 3 years and I've taught more than 40 students. As a student myself I find it interesting to teach others and also it is the best way to learn and earn.)

Languages

English | Hindi | Gujarati

Education

B.Tech(COMPUTER ENGINEERING),

Silver Oak College Of Engineering And Technology

07/2019 – present

Projects

Weather Application, University Project

An Web Application to help user get a quick glance on Weather around them or anywhere in the world. So that they can plan their vacations/Journey according to weather and take necessary precaution.

Wellnessutra [🔗](#)

As a freelancer I've successfully developed a website for a Yoga Instructor.

Discussion App, Personal Project

A simple discussion app that allows user to post question and get the answer(just like StackOverflow).

Professional Experience

Full Stack Intern

06/2022 – present

We have been working on a website that will track all the data that is occurring within the company. With the aid of this website, data organization has become quite simple. In order to maintain track of the data, we have created numerous working pages for the authorized users and employees in accordance with their tasks. An administrator has access to all of these pages.

Certificates

- Completed the Frontend Dev With React Js with DevTown. [↗](#)
- Completed the Server Authentication using Express and NodeJS. [↗](#)

Declaration

I do hereby declare that all the details mentioned above are accurate to the best of my familiarity and confidence.
